PROFESSIONAL EXPERIENCE

Innovative Dermatology, Chicago IL

Board-Certified Dermatologist

Manages and treats a wide range of difficult skin conditions in a diverse patient population adjacent to Illinois Masonic Medical Center.

2025 - current

Chicago Skin Clinic, Chicago IL

Board-Certified Dermatologist

Manages and treats a wide range of difficult skin conditions with a focus on biologic therapies in a high-volume clinic. Developed and implemented innovative biologic protocols and workflows tailored to patient needs, resulting in improved patient outcomes. Prioritized patient education and community outreach, especially for skin of color, through targeted programs and materials. Oversees clinic operations, ensuring high standards of patient care and clinic productivity. Investigator Researcher in Clinical Registry via COREvitas for Alopecia Areata (2024-current).

2017 - current

Los Doctores Cubanitos LLC, Chicago IL

Founder and CEO

As the founder and CEO of Los Doctores Cubanitos LLC, I established a dermatologist-created skincare brand that also gives back to the Hispanic community. I oversee product development, marketing, and business operations, ensuring product formulations address the unique needs of diverse skin types. Successfully launched the brand and built a loyal customer base through strategic marketing and community engagement.

2021- current

Dean's List – University of Chicago	2004 – 2008

LEADERSHIP EXPERIENCE

New York Medical College, New York, NY Chief Resident in Dermatology Selected by peers and the chairman, I created academic schedules, ensured clinic coverage, and coordinated lectures. I improved clinic wait times and developed an interdisciplinary teaching series. I founded a weekly newsletter and bilingual patient education materials.	2016-2017
Midwest Regional Latino Medical Student Association – National Association Webmaster and VP of Communications for Midwest Region Coordinated the execution and planning of the 22nd and 23rd annual Latino Medical Student Association (LMSA) Midwest Regional Conference (2011 and 2012). Created a unique website for all local Midwest chapters to share event-planning and strategies for running events. Integrated social media to all chapters and developed an outreach program.	2010 – 2013
Colleges Against Cancer - Rush Medical College, Chicago, IL Vice-President of Student Education and Awareness Organized "Rush For the Cure" cancer-awareness event in November 2010, attended by over 200 Rush students, faculty, and patients. Founded a cancer-initiative shadowing program for medical students interested in shadowing available doctors with certain specialties. Established lunch lectures for medical students and nursing students to address the multiple aspects of cancer medicine and the multitude of ways that doctors and nurses approach cancer treatments.	April 2010 – August 2011
Rush Latino Medical Student Association – Rush Medical College, Chicago, IL President Created and executed the Midwest Regional LMSA Conference held at Rush Medical College (Jan 2011) with attendance of over 250 students from premeds, medical students, and residents. Organized workshops, speakers, hands-on learning, and volunteering events throughout Chicago to increase awareness of medical professions.	2009 – 2011
